

यूको बैंक अंचल कार्यालय जयपुर परिसर, अधीन आने वाली समस्त बैंक शाखाओं, रीजनल ट्रेनिंग केंद्र वह मुद्रा तिजोरी बानी पार्क में डिजीटल फायर एवं इलेक्ट्रॉनिक अलार्म सिस्टम लगाने वह लगे हुआ की वार्षिक रख रखाव हेतु बोली आमंत्रित करने हेतु-

Invitation of Bids For Installation, deployment & AMC of already deployed/ to be deployed Digital fire cum Electronic alarm system at Zonal Office Complex, RTC, UCO Bank branches & Currency Chest Bani Park under Jaipur Zonal office.

जयपुर अंचल में स्थित शाखाओं में डिजीटल फायर एवं इलेक्ट्रॉनिक अलार्म सिस्टम लगाने के लिए प्रतिनिष्ठित कंपनियों /प्रतिष्ठानों से आवेदन आमंत्रित किए जाते हैं। केवल वही टेंडर आवेदन स्वीकार किए जाएंगे जो नीचे लिखे मानदण्ड पूरा करते हों-

1. **31 मार्च 2026** तक की अवधि तक प्रतिष्ठित सेवा प्रदाता व्यवसाय में न्यूनतम 5 वर्ष की अवधि पूर्ण कर चुके हों।
2. राजस्थान राज्य में स्थित सभी बैंक शाखाओं में कार्य करने की क्षमता हो।
3. डिजीटली फायर और इलेक्ट्रॉनिक अलार्म संबंधी सेवा तकनीकी स्तर पर इस विज्ञापन के अनुलग्नक द्वितीय में दी गई विशेषताओं के अनुरूप हो।
4. आदेश देने के 48 घंटे में सिस्टम लगाने का कार्य शुरू हो जाए और आर्डर देने के अधिकतम 05 दिन में यह प्रक्रिया पूरी हो जानी चाहिए।

Applications are invited from reputed Companies /Firms for installation & Maintenance of already installed Digital fire and electronic alarm system in branches under UCO Bank Zonal Office Jaipur. Only those Companies and firms who fulfill following criteria will be considered for empanelment:-

- Reputed services providers should have been in the business for at least last 5 years as on 31st March 2026.
- Ability to undertake the work of all branches throughout the Jaipur/Rajasthan District
- Ability to provide Digital Fire and electronic alarm as per technical specifications available at annexure-II of this advertisement.
- Ability to commence service within 48 hours from date of placement of order and complete within 05 days from placement of order.

1. इस विज्ञापन के अनुलग्नक-1 में योग्यता के मानदण्डों के अनुरूप हों।

The vendor should meet the eligibility criteria as per details available at annexure-I of this advertisement

2. सिस्टम अनुलग्नक-11 में दिए गए विवरणानुसार तकनीकी प्रदर्शन की योग्यता रखते हों।

The system should meet with technical specification and details given in Annexure-II.

3. प्रस्तावित समझौता जो वेण्डर द्वारा हस्ताक्षरित किया जाना है। विज्ञापन अनुलग्नक-3 में दिया गया है।

Proposed agreement to be signed with the vendor is also available at Annexure-III of this advertisement.

4. सूची में सम्मिलित करने हेतु वेंडर्स की संख्या अधिकतम 7 की जा सकती हो। योग्यता के मानदण्डों के अनुरूप अनुलग्नक-1 में मापदण्ड अवरोही क्रम में तथा तकनीकी विशेषता अनुलग्नक-2 में दी गई है।

Empanelment of vendors may be restricted to maximum 07 vendors in accordance with merit towards fulfillment of eligibility criteria in a descending order specified in Annexure-I and fulfillment of technical specification compliance given in Annexure II.

6. वेंडर को पुराने निष्क्रिय यंत्रों को वापस लेने के लिए ऑफर की सुविधा प्रदान करता हो।

Vendor has to give buyback offer of old obsolete alarm system.

7. वेंडर को तकनीकी रूप से दक्ष होने के साथ पुराने इलेक्ट्रॉनिक अलार्म सिस्टम की वार्षिक रख-रखाव करार (एएमसी) लेकर उसको चालू हालत में रखना होगा।

Vendor has technical capable to take AMC of existing Electronic alarm system and keep 24 x 7/365 days a year in top working condition.

8- भुगतान का 10 प्रतिशत बैंक के पास 1 वर्ष के लिए उत्तरदायित्व (यदि कोई कमी पाई जाती है) के लिए रखना होगा या 10 प्रतिशत के हिसाब से बैंक गारंटी रखनी होगी।

10% of the payment will be retained by bank for one Year as Defect liability or Bank guarantee equal to 10% payment.

9. आवेदन पत्र 20/09/2026 को साय 3 बजे (A/N) तक अधोहस्ताक्षरकर्ता को 3 सीलबंद कवर में भाग-1, भाग-2 एवं भाग-3 तथा पूरे पते और फोन नं. के साथ प्राप्त हो जाने चाहिए

A. भाग-1- योग्य बोलीधारकों को कंपनी की विस्तृत जानकारी, ग्राहकों की लिस्ट पंजीकृत नंबर एवं बिक्री कर की जानकारी अनुलग्नक-1 के अनुसार बिन्दुवार प्रस्तुत करनी होगी।

B. भाग-2 तकनीकी निविदा- विशेष विवरण हेतु

1. फायर वं इलेक्ट्रॉनिक अलार्म हेतु तकनीकी विशेषता की शर्तें अनुलग्नक-2 के अनुसार है।

2. अलार्म प्रणाली (सिस्टम) एवं उसके सभी भागों को उत्तम तकनीकी विशेषता से युक्त होना चाहिए।

Applications are to be sent to the undersigned in three sealed covers super scribed as Part-I, Part-II and Part-III with vendors complete address and contact number on or before **1500 hrs on 20/09/2026** as under:

(a) Part I. Eligibility bid- to include profile of the company, list of major existing clients, registered number and sales tax details etc. as per Annexure -I point wise. Attach document wherever required.

(b) Part II. Technical bids -to meet the technical specification:

1) Compliance of technical specification of Fire cum electronic alarm system given in Annexure -II point wise.

2) The system and all the parts should meet with standard stipulated in technical specification.

(Vendors may be asked to submit Copy of certification of equipment i.e. UL/CE/FCC/MIC, copy of document of authorization from manufacturer to Indian dealers and from Indian dealer to supplier undertaking that the cards supplied are original)

(c) Part III. Financial bids should be: Net rates (inclusive of all taxes, levies and installation charges) in the following format.

S.No	Name of Item/work	Qty	Net Rate per unit In Rs.
1	Intergrated control Panel with built in GSM ATD with speech and SMS dialer		
2	Magnetic contact switch		
3	Vibration sensor		
4	Tilt sensor		
5	Panic switch		
6	Smoke sensor		
7	Heat sensor		
8	Multi (Heat and smoke sensor)		
9	PIR sensor		
10	Hooter		
11	Motorized siren (1 Mile)		
12	2 Core wire per meter		
13	PVC per meter		
14	Warranty period		
15	Rate of yearly AMC for 03 yrs.		
16	Installation charges/per branch, new installation.		
17	Buyback offer for old alarm system		
18	12 V battery (Exide only).		
18	Any other items which may be required can quoted below besides the items/ work mentioned.		

10. EMD shall be Rs-10000/- (Ten thousand only) to be deposited along with tender document through Demand draft, Bankers cheque or Pay order in favour of UCO Bank, Zonal office, Jaipur. EMD is liable to be forfeited in the event of:

- Revocation of the tender or increasing the rates after opening of the tender and before the expiry of the validity of tender.
- Refusal of the vendor/Contractor to execute the agreement or not complying with the contractual terms & conditions after awarding of contract.

11. Part (I) Date for opening of Eligibility bid will be conveyed after receipt of tender and Part (II) Technical bid will be opened only if Bank is satisfied with Part I and the successful vendors will be empanelled after Live demonstration of the system and Part III (Financial bid) of empanelled vendors will be opened if bank is satisfied with Part-I, Part-II and satisfactory demonstration of the system. Bank reserves the right to reject any/all bids without assigning any reason thereto. Bid must contain non refundable BD/BC of Rs.3000/- in name of Zonal Manager UCO Bank Jaipur payable at Jaipur.

12. Other terms & conditions are given at the annexure-IV of this advertisement.
13. For any other queries, vendors may contact the undersigned on working days between 11 A.M. to 4 P.M.
14. Bank is not responsible for late application or damage in transit.
15. Any dispute arising in this matter will be settled in the jurisdiction of Jaipur only.

Zonal Manager
UCO Bank, Zonal Office, 2nd Floor,
Orbit Mall, Near Civil Lines Metro Station
Jaipur(Raj).

ANNEXURE- I

ELIGIBILITY CRITERIA OF VENDORS FOR PROVIDING AND INSTALLING FIRE AND ELECTRONIC ALARM SYSTEM.

फायर और इलेक्ट्रॉनिक अलार्म लगाने के लिए वेण्डर्स को इस व्यवसाय में 5 वर्ष का अनुभव होना चाहिए।

Vendor providing Digital Fire cum electronic alarm system should have been in business for the last five years as on 31-03-2026.

वेण्डर- उन्हें पर्याप्त मात्रा में टेक्नीशियन एवं क्षेत्रीय सेवा प्रदान कराने वाले जो यंत्रों की मरम्मत न कर सकें और सिस्टम फेल (ब्रेक डाउन) की स्थिति में जयपुर अंचल की शाखाओं को 24 घण्टे में मरम्मत करने की क्षमता रखते हों।

Vendor providing Digital Fire cum electronic alarm system should have adequate technician and local service center to attend and repair the complaint and breakdown within 24 Hours under Jaipur Zone.

वेण्डर के पास पंजीकरण प्रमाण पत्र हो अथवा प्रतिष्ठान या स्वामित्व का पत्र हो।

Vendor should have a Certificate of Registration with Registrar of Companies or Registrar of Firms or have a letter of proprietorship.

वेण्डर को कर मूल्यांकन एवं पैन/टैन नं. देना होगा।

Vendor should provide the latest Income Tax Assessment Order and PAN/ TAN Number.

वेण्डर को नवीनतम 3 वर्ष का अकेक्षित तुलन पत्र देना होगा।

Vendor should provide the latest Audited Balance Sheet Preceding 3 Years.

वेण्डर को पिछले 3 वर्ष की पूर्ण बिक्री का विवरण देना होगा।

Vendor should provide total annual turnover for last 3 years.

वेण्डर को अपने बैंक का नाम और पता, करदान क्षमता (जो एक वर्ष से पुराना न हो) देना होगा।

Vendor should provide name and address of banker with solvency certificate not older than one year.

वेण्डर का जयपुर में स्थानीय कार्यालय में मय पते एवं संपर्क सूत्र के साथ देना होगा।

Vendor should have a local Office in Jaipur State, preferably at Jaipur city only and provide full address and contact number in jaipur.

वेण्डर का पंजीकरण दुकान एवं प्रतिष्ठान अधिनियम के तहत को नवीनतम 2 वर्ष का अकेक्षित तुलन पत्र देना होगा।

Vendor should be registered with Shops & Establishment Act. And provide latest Certificate for ESI Corporation. Due preference will be given if registered in Jaipur/Jaipur.

वेण्डर को ई.पी.एफ. एवं विविध प्रावधान अधिनियम 1952 के अंतर्गत ई.पी.एफ. संगठन का प्रमाण पत्र प्रस्तुत करना चाहिए

जिसमें लागू मापदंडों के अनुसार कर्मचारियों की संख्या निर्धारित की गई है।

Vendor should provide the latest certificate for EPF Organization under EPF and Misc provision Act 1952 if applicable as per criteria of number of employees held.

वेण्डर का पंजीकरण सेवाकर हेतु उपयुक्त-राधिकारी द्वारा प्रदत्त होना चाहिए।

Vendor should be registered under the appropriate authority for service tax.

आई.बी.ए. द्वारा अनुमोदित आई.एस.ओ. द्वारा प्रमाणित को वरीयता दी जाएगी।

Due weight age shall be given if service provider is IBA approved and ISO certified.

जिन वेण्डर्स ने जयपुर के अंतर्गत राष्ट्रीयकृत बैंको को अलार्म सिस्टम की पूर्ति दी है उन्हें अधिक वरीयता दी जाएगी।

Preference will be given to the vendors who have supplied security alarm systems to Nationalized Banks in Jaipur area.

ANNEXURE II

Specification of Digital fire and electronic alarm system

GENERAL

The fire and electronic alarm system consists of control panel which is wired to various sensors like magnetic contact switch, vibration sensors, tilt sensors, smoke sensors, heat sensors, panic switches and PIR sensors etc. The type and number of sensors to be used depends on the size of area to be protected and the location of possible intrusion.

The control panel takes the decision of an alarm condition after getting the signal from the various sensors. The control panel has capability to interface with the external devices like motorized sirens/hooters or the observation system lights etc. The entire system operation is fully automatic under microprocessor technology. The daily operations, user merely needs to just arm and disarm the system by turning a mechanical key/electronic switch.

*The system shall be Electronic Regional Laboratory certified.

The control panel

The fire and electronic alarm system control panel is the heart of the entire security system. It shall monitor all system sensors and control alarm conditions. The control panel shall have various visual indications on the front panels by LEDs. If the alarm condition occurs the control panel should display which sensor caused alarm. The panel should also display the mode of operation system i.e. arm / disarm.

Control panel should have 12 V-7 Amp/hrs automatically rechargeable sealed maintenance free batteries. The control panel should have electronic switch / mechanical key for performing day to day operation i.e., day mode and night mode.

Control panel should be LCD based minimum 16+1 fully programmable zone control panel with built in GSM, speech dialer with automatic arming and disarming and remote access through telephones. The control panel should be microcontroller based 16 zones programmable as delay, immediate, panic or fire along with one temper zone. The system should have separate remote key pad with 16X4 LCD display. There should be separate zone for fire detection. The system should be programmable for the no. of seconds after which the panel response. Automatic bypassing immediate and 24 hour's active zone facility. Panel can be armed and disarmed by telephone. Code can be changed through telephone. Any 8 electrical devices can be switched on or switched off through telephone.

Features

- Arm and disarm mode
- Easy for operation just by mechanical key/electronic switch
- Battery backup for minimum 36 hours
- Automatic switchover to battery in case of AC power failure
- Automatic battery charging once the AC power is restored
- Low battery indication
- Audio-visual alarm indication
- Different tones for fire and intruder alarm conditions
- Selectable delay time
- Close end circuits
- Speaker wire cut detection for all sensors and hooters/speakers/siren
- Supports combination of hooters/speakers/siren
- Open/short circuit detection on fire zones by audio-visual indicate
- Provision for interface with automatic telephone dialler/observation system etc. that to separately for fire and intruder alarm condition
- ERTL certified

Input Devices

Magnetic contact switch

Magnetic contact switch consists of two parts. One consists of magnet and other contains the reed switch. The magnet is mounted on the door (which moves) since no wire connections are required for connecting magnet. The reed switch part is mounted on the door frame where the wire connections are made. When the door is near the frame i.e., the door is closed the reed switch activates. When the door is opened the reed switch deactivates. The deactivation breaks the reed switch contact which is detected by the control panel. Generally the range of the door sensor is ½ inch.

Vibration Sensor

The vibration sensor detects vibration since the contact inside the sensor break due to vibration. When the sensor is mounted on the walls/doors/windows any attempt to break, will be detected by the sensor. Please note that if vibration detectors are to be connected they must be connected in 24 hours zone.

Panic Switch

Panic switch should be either hand operated or foot operated. In case of any threatening from the intruder / miscreants or to alert the people around the switch can be operated by pressure of hand/foot.

Smoke Detector

The photo thermal smoke sensor range gives protection against both slow and fast developing fire and is an environmentally acceptable alternative to an ionization detector. It is a true multi criteria unit. The output level from both the optical chamber and the thermion are continually monitored by the on board processor, using algorithms developed specially for the unit. An alarm signals is only enable in the detector once the processor is satisfied that

an incipient fire has been detected. By using a combination of inputs the incidents of nuisance alarm is reduced while at the same time the response time to an actual fire is also improved. The system should have designed to be highly tolerant to the long term build up of the dust and other airborne contaminants. The detector system shall have features like automatic drift compensation and alarm sensitivity adjustment.

Heat Detector

A heat detector is a fire alarm device designed to respond when the convected thermal energy of a fire increases the temperature of a heat sensitive element. The thermal mass and conductivity of the element regulate the rate flow of heat into the element. All heat detectors have this thermal lag. Heat detectors have two main classifications of operation, "rate-of-rise" and "fixed temperature."

PIR Sensor

PIR sensor should be dual element pyroelectric sensor with latest technology digital signal processor (DSP). PIR should have pet immunity up to 25 Kg. Detection range of PIR should be 15 mts with 110 degree angle. The PIR sensor should have the sealed optics and selectable pulse count and excellent RFI and EMI immunity. Activation of PIR sensor will be just through walk test.

Output Devise

Hooter

Hooter is the external devise like multi tone electronic sounder can be connected to the control panel. Minimum 8 different tones shall be programmable using DIP switches. The hooter shall have a sound pressure level of 100 dB approximately, IP 54 environmental protection. The hooter activates in alarm condition. Maximum of 2 speakers or their combination can be hooked to the system. Individual hooter must be of 4 ohm impedance.

Motorized siren

Motorized siren should be heavy duty and robust to withstand humidity and heat. It should be in suitable protective cage. It should be connected with the main control panel and direct electrical line. The control panel will activate the connection of motorized siren with electricity. The sound of motorized siren should travel 1 Km in ambit noise condition.

Automatic telephone dial up

ATD require to dial pre-programmed telephone number on receipt of the trigger inputs by alarm system. It should work on GSM and also be capable of sending pre-coded / recorded SMS on mobile. The features of ATD should be as follows:

- a. Tone and pulse dialling mode.
- b. 10 programmable phone nos. up to 12 digits.
- c. 2 separate messages for 2 different inputs like intruder and fire alarm.
- d. Verification by playback recorded messages during programming.
- e. Provision of parallel telephone instruments / GSM SIM.
- f. Provision of programming from parallel telephone instruments as well as remote telephone instruments / mobile phone.
- g. Ring detection before connecting to ATD.
- h. Programmable password for entering mode.
- i. Retention of programmed data in case of power failure.

j. Highest priority for condition dialling.

Technical Specification & compliance for vendor

SECURITY ALARM SYSTEM (SAS)

S No.	Security Alarm Syst	SPECIFICATIONS	Compliance Yes/No
1.	Technical Specification for 8/16 Zone Security Alarm System		
(a)	Micro- controller Based Control Panel with Inbuilt LCD indication	Integrated Auto-dialer Hybrid (<i>PSTN AND GSM based</i> with auto check indication by LED and SMS, tampered proof/wire cut trigger/short circuit/provision of wireless zone and inbuilt LAN port for future CMS compatibility and supports SIA and DC protocol	
(b)	Communication to CMS and Health monitoring Software support	8/16 Zone alarm metal Body Panel with Inbuilt Lan Port and 4G GSM inbuilt support for DUAL path network to communicate with Command centre and can be brought to network through LAN or 4G for health Monitoring and remote ctrl from CMS	
(b)	External Body Features	(i) Protected from dust, water, vermin etc. (ii) Acrylo nitride Butadiene Styrene(ABS)/18SWG MSCabinet, epoxy Coated. (iii) Locking of panel by Allen Head screw on sides/internal lock iv) Bracket mounted (v) Provision for battery compartment inside the panel	
(c)	Micro-controller Based with LCD indication & push button	(i) Dedicated switch for health check and display of each item status on LCD (ii) To show the status/health of the system(Data Logger System) (iii) The panel should indicate the health of the system(Fault, power failure and battery status indicator).	
(d)	Wireless Module	Provision for Cordless Switch to activate the alarm system	
(e)	Real Time Clock	Show real time	
(f)	LCD display	Indication in the event of any zone getting faulty or switch getting isolated and the system to remain functional.	
(g)	Automatic(arming & disarming)	(i) Change from day to night mode & Vice-versa as per the real time clock(programmable) (ii) Optional Day and Night reset key	
(h)	Sounding gets automatically put off after a period of 3 to 6 minutes (programmable with the help of keypad) and thereafter the entire system should get reset.		
(i)	Programmable 0-90 Sec time delay to activate		

(j)	Hooters for panic switches and entry and exit time delay from 0 to 90 sec for PIR	
(k)	Support two external hooters besides the internal one.	
(l)	Indication of hooter/siren health status through LCD display.	
(m)	Hooters	(i) Min 90 dB for internal and 110 dB for External (CE&UL certification) (ii) 4 wired with tamper loop (iii) ABS body (iv) Weatherproof (v) Wall mounting facility (vi) Operates on 12VDC (vii) Emergency panics witch with hooter
(n)	Power Supply	UPS supply (Mains) and self battery backup (12V7AH) with re charging facility
(o)	Compatibility	PIR Sensors, Magnetic Sensors, Vibration Sensors, Light Sensors, multi-function sensors and any wireless Sensors.
(p)	Auto Reset after Activation	03 to 05 minutes (Day & Night Mode)
(q)	Wire cut trigger	Activate the alarm system for 3 minutes thereafter the affected switch/zone to get isolated/bypassed with display/ blinking of LCD panel indicating the defect.
(r)	ON/OFF function	Through Key pad and optional reset key
2.	In-built Auto Dialer with 4/5 G Support for Call & SMS	
(a)	Compatibility	Hybrid GSM <u>AND</u> PSTN connection of any service Provider.
(b)	Storage and dialing	(i) Provision for storage and dialing minimum five (05) Telephone/mobile numbers with recording message upto 20 Seconds duration (ii) Message recording facility at local end (Branch end). (iii) Ability to generate SMS alerts in addition to auto dialing to the pre-fed numbers
(c)	Re-dialing	(i) Message should be repeated at least twice before dialing the 2 nd number (ii) If number not responded, facility to re-dial the number after completing the cycle
(d)	Display	Provide signal strength and status indication on display screen
(e).	Simulation/Testing	Provisioning of a TEST button for simulating SMS as well as voice calls to a desired number by user without opening the main panel box
3.	Dual Tech PIR Sensor	
(a)	Dual Technology (IR & Microwave)	
(b)	Detection coverage horizontal angle	110 degrees
(c)	Detection Range: Up to	minimum 10 Mtrs

Govt. of India Undertaking / भारत सरकार का उपक्रम

(d)	Sensitivity range: Low/ Med/High	
(e)	Wall mounting facility.	
(f)	Pet/rodents immunity.	
(g)	Provision for calibration to adapt changes in ambient temperature due to various seasons.	
4.	Wiring	
(a)	2 Core and 4 Core Multistrand.75sq. mm / 1sq mm, flexible, ISI marked.	
(b)	PVC insulated copper wire for connection of panic switches and Other sensors respectively	
(c)	Rigid PVC conduit 2mm ISI mark. Fixed with metal saddling at every 02 ft distance.	
5.	Magnetic Sensor(For Door)	
(a)	ABS body	
(b)	4 wired with tamper proof loop(NC circuit)	
(c)	OperatingGap:5cm	
6	Magnetic Sensor(For Shutter)	
(a)	Metallic body	
(b)	4 wired with tamper loop(NC circuit)	

(c)	Operating Gap:5cm	
7.	Multi-Function Sensor	
(a)	Capable of vibration detection, metal cutting and glass breaking	
(b)	ABS body	
(c)	Sensitivity range: Low/ Med/High	
8.	Panic Switch	
(a)	Sturdy built	
(b)	Micro Switch Technology	
(c)	In-built tamper Switch	
9.	Light/Occupancy sensor	
(a)	Microwave sensor	
(b)	Detection through doors, panes of glass, thin walls.	
(c)	Detectionangle:360/180 degree and detection length:12 meters	
(d)	Motion detection speed:0.6-1.5m/s	
(e)	Transmission power: greater than 0.2 mV	
(f)	Identify :Day & Night	

ANNEXURE III

AGREEMENT FOR PURCHASE OF DIGITAL FIRE AND ELECTRONIC ALARM SYSTEM IN UCO BANK BRANCHES UNDER JAIPUR ZONE.

An Agreement is made this.....day of.....between UCO Bank, a body corporate constituted under banking companies (Acquisition and transfer of undertaking) Act-1970 having it's Zonal Office at Jaipur, hereinafter referred to as the "Bank" of the one party and M/S..... here in after referred to as the "vendor" of the other party.

WHEREAS in consideration of charges hereinafter reserved and the covenants and agreement hereinafter contained and on the part of the vendor to be observed the Bank doth hereby entering into an agreement with the vendor for supply and installation of Digital fire and electronic alarm system at various branches under Banks Jaipur Zonal office.

WHERE AS IT IS AGREED

- 1) The vendor shall install Digital fire and electronic alarm systems at bank's various branches under the command of UCO Bank Jaipur Zone on the terms and conditions herein contained and according to the general condition of tender specifications and schedule of rates attached, and instructions to be given by and under the supervision of and to the entire satisfaction of the bank.
- 2) The vendor has satisfied himself as to the nature of the work to be executed on the site. Any difficulties which the vendor may come across in the course of the work shall neither in any way relieve him for fulfilling the terms of this agreement nor entitle him to claim or receive extra payment, unless the banks authorized representative is of the opinion that such difficulties could not have been foreseen.
- 3) SUPPLY OF MATERIALS/LABOUR: The vendor shall provide all labour, materials, tools & everything necessary for the completion of the installation work. The detailed specification mentioned in the tender documents shall be adhered to by the vendor and no variation shall be made therein by the vendor without obtaining previous approval in writing from the authorized representative of the Bank.
- 4) All materials supplied by the vendor shall be of the best quality, confirming to the required specification and will be subjected to the approval of the bank's authorized representative. All such materials as shall not be approved shall be removed at once by the vendor at his own expense. The vendor shall be responsible for any loss arising from any failure of the vendor to discharge his responsibility for the safety and protection of all materials/equipment of the bank during execution of the work.
- 5) Damage on account of the incomplete work: the vendor shall complete the work within the time stipulated in the work order to this effect. The work will be progressed in accordance with the agreed schedule and whole work shall be completed and handed over ready for use within the agreed time period from the date of commencement of work (time being of the essence) failing which the vendor shall pay the liquidity charges @Rs-100/-

per day per branch subject to maximum 10% of the contract value. Such damages may be deducted by the bank from any money due to the vendor.

6) Termination of contract: In the event of the vendor failing to keep to the agreed schedule of work, or in the event of the vendor failing to complete the work within the stipulated period, the Bank may terminate this agreement forthwith and employ at the vendors cost, another vendor or a sufficient number of workmen to complete the work in which event the damages specified in clause 5 above shall not apply from the date this agreement is terminated.

7) Defective work materials: if any part of the work done by the vendor shall be found defective in workmanship or if bad or inferior materials have been used. The vendor shall at his own risk and cost, replace all such defective work and replace the bad or inferior materials used, to the satisfaction of the Bank's authorized representatives. The decision of the Bank's authorized representative in this regard shall be final and binding on the vendor. In case of default of the vendor to remove the defective work or replace the bad or inferior materials as aforesaid, as directed by the Bank's authorized representative, the bank shall be entitled to employ anyone else to carry out the same and recover all expenses incurred in this regard from the vendor.

8) Substitution of the vendor: If the Bank finds it necessary to employ other person(s) as mentioned herein above then the Bank may deduct and retain from out of the terms due to the vendor all such sums of money as may be required to pay or to reimburse themselves in respect of the expenses which they may have to pay or have incurred in getting the work so done and if such expenses be more than the amount due to the vendor, then difference shall be a debt recoverable from the vendor by the bank. The vendor shall not do or cause to be done any act, manner or thing, which would prevent the person(s) so employed by the bank from doing their work. On termination of the agreement as aforesaid, the vendor shall at his own risk and cost remove from the work –site within the time prescribed by the Bank all *materials*, tools, equipment which the bank considers are not useful for its requirements. If the vendor does not remove the materials within the time prescribed, the Bank may remove and sell the same holding the proceeds less the cost of storage, removal and sale, to the credit of the same, from the vendor. The Bank shall however be entitled to purchase the materials inspected and approved as useful for its requirements, at the prices then prevailing.

9) Inspection of work: During progress of the work, the representative of the bank shall be entitled at all times to have access to and inspect the work.

10) Supervision: The vendor shall provide one or more competent and technical supervisors duly and fully authorized to act on his behalf in all matters relating to the works to be carried out under or any other matter concerning this agreement and who shall at all times be present at the works when any work is in progress. Such supervisions shall be persons of known experience and be approved by the Bank authorized representative before they are permitted in any way to take charge of, or superintend any operations of the works. Any

directions, explanation, instruction or notice in connection with the work given by the Bank's authorized representative to the supervisor or any one of them shall be deemed to have been given to the vendor.

11) Payment for work done: Payments of the final bill will be made and retention money 10% will be deducted and retained for a period of 12 months to safeguard against defects arising out of faulty workmanship/materials/provided by the vendor and against any other claims against the vendor from any other reason whatsoever.

12) The vendor shall submit his final bills in duplicates based on measurements jointly recorded by Branch Head/Bank's authorized representative and with the vendors authorized representative. All payments against the bills will be made by the respective Branch through cheque and such payments shall be subjected to deduction of income taxes and levy's as applicable from time to time.

13) The Bank-in consideration of the vendor carrying out the work shall pay the vendor at the rates given in the attached schedule, subject deductions, retentions and abetments, if any to be made there-form. The payment in all cases will be in accordance with the actual quantities, based on the measurement as specified herein above.

14) Subletting contract: The vendor shall not without the prior written consent of the Bank first had and obtained sublet or assign this agreement or any part thereof.

15) The terms and conditions mentioned in the tender documents and in the work order shall form part & parcel of this agreement.

16) Workmen's Compensation Liability: The vendor ,his heirs, executors and administrator(and in the case of a Limited Bank, its successors and assigns) shall hold the Bank harmless and indemnified from and against all claims ,costs and charge for which the Bank shall be liable under the workmen's compensation Act., and any enactment for the time being in force in that behalf and any amendments thereof and the expenses to which it shall be put there under, both in respect of personal injuries (within the meaning of the said act)to the employees and servants of the vendor, sub vendor, if any, and /or permitted assign, arising out of or occasioned during the currency of this agreement, through the acts ,or omission whether due to negligence or otherwise of the vendor, sub vendors permitted against and also in respect of the personal injuries (as understood under the said act) to the servants and employees of the Bank arising out of or occasioned through the acts and omissions whether due to negligence or otherwise, of the vendor, sub vendors permitted assigns and /or his servant and employees in carrying out any of the provision of this agreement. The vendor shall further indemnify the Bank against such claims from omission, whether due to negligence, of the vendor, sub vendors, permitted assigns and /or his servants and employees in carrying out any of the provisions of this agreement.

17) Liability under Employees State Insurance Act: Whenever the bank is required to pay contribution in respect of the workmen or employees engaged or employed by or through the vendor, his sub vendor or permitted assigns, under the Employees State Insurance Act or

the rules and regulations, made there under either as the Principle Employer or otherwise howsoever, the Bank shall be entitled to recover from the vendor such contributions which the bank may pay. The vendor will discharge his responsibilities under the Employees State Insurance Act, 1948 as an immediate employer engaged or employed by him for the execution of the work or as next immediate employer in case he has sublet or assigned the agreement or the instructions as provided herein above. The vendor acknowledges the rights of the Bank to recover the amount of the contribution paid by it in the first instance in respect of the employees employed by or through him (the vendor) or by his sub- vendor or any amount payable to him by the Bank under any contract or as a debt payable by him to the Bank.

18) Statutory requirements: The vendor shall conform to provisions of Acts of Parliament or state legislatures and to any bye -laws ,rules, orders or notifications of any Government, Municipal or local authority for the time being in force affecting the work undertaken by him and will give all necessary notices to and obtained requisite sanction and permits of and from the Municipal and any other authority in respect of the said work of the materials to be used thereat and generally will comply with building and other regulations of such authorities and will keep the Bank indemnified against all claims, penalties and losses that may be incurred by it by reason of any breach by the vendor of any statues bye-laws, rules, regulation, notifications etc.

19) The vendor undertakes to ensure due and complete compliance with all laws regulations rules etc. whether of the central Government or the state government or of any other competent authority applicable to the workmen employed or whose services are otherwise availed of by the vendor whether in connection with the construction work at the site or otherwise.

20) The employer shall have the right to inspect the records maintained by the vendor concerning such workman from time to time and the vendor shall whenever require by the employer produce such records as the employer may call upon the vendor to produce for the employer's inspection in order to ascertain whether or not the requirements of all such laws, regulations, rules etc. have been complied with by the vendor. In even of my contravention of such laws, regulations, rules etc. coming to light whether as a result of such inspection or otherwise to effect such compliance within such time as the Employer may prescribe in that behalf and in the event of the vendor failing to effect such compliance within the time prescribed by the employer then the employer shall without prejudice to his rights be entitled to withhold from the amount payable to the vendor any amount payable to the workmen under any such laws, regulations or rules to make payment thereof to the workmen. The employer shall also have in that event the right to terminate the contract with immediate effect and to exercise power reserved to the employer under the contractor as a result of termination.

21) Clerical errors to be rectified: Neither party shall take any advantage of any clerical error or mistake which may creep in or occur in the specifications, schedule of rates, plans instructions tenders or any other papers supplied to or by the vendor in connection with the work, but such clerical errors or mistake shall be brought to the notice by the one to the other without any loss of time and same shall be rectified.

22) The parties to this agreement shall not be responsible for any failure of performance or delay in performance of their obligations hereunder if such failure or delay shall be a result of any Government directive relevant to this agreement or due to war, hostility, act of public enemy riots or civil commotion, strikes, lock-out, fire, flood, epidemic or act of god, arrests and restrains of rulers and people, political or administrative acts of recognized or defector Governments, imports or export restriction compliance with orders of any Governmental/Local authority or any other cause or causes beyond their control.

23) Jurisdiction: This agreement shall be deemed to have been made in Jaipur and shall be construed according to the laws of India and the performance by the vendor of and act on his part herein contained shall be considered due in Jaipur for the purpose of jurisdiction.

24) Tender quotation(.....Nos pages), Bill of quantities(.....nos pages) , Technical specification(.....Nos pages) ,Special terms & Conditions, General terms and condition & Schedule of maintenance(.....Nos pages) are part & parcel of this agreement.

25) In case of any problem in any of the system at any of the branches of Banks under Jaipur Zone. It shall be attended promptly maximum within 24 hours for local area and 48 hours for remote area branches of receipt of complaint.

In witness whereof the said contracting parties have set hands and seals on the day and year first herein above witness.
